

PHENIX JET

About Phenix Jet

Phenix Jet is a private aviation company providing aircraft management and charter services with a focus on safety, reliability, and Japanese-quality service. Backed by Sojitz Corporation (TYO: 2768) as its major shareholder, Phenix Jet stands at the forefront of business aviation in Asia and beyond.

We operate two Air Carrier Certificates (AOCs) for our registered aircraft, enabling global reach with the highest standards of safety and compliance. Our state-of-the-art fleet includes the Bombardier Global 8000/7500/6000, Gulfstream G650/G650ER and Boeing Business Jet (737), supported by an experienced team committed to exceptional service.

Our Services

Aircraft Charter

With our worldwide charter capability, we tailor every aspect of your journey to your desire. Flying with Phenix Jet is a unique and highly satisfying personal aviation experience.

Aircraft Management

Phenix Jet delivers peace-of-mind to our aircraft management clients. We offer this through flexible, sophisticated and seamless solutions in an increasingly complex environment, whilst delivering a professional, proactive and personalized service.

Highest Safety Standards

Phenix Jet is built on decades of aviation experience, detailed technical expertise, a strong international presence, and superlative performance exceeding international best practice.

Performance Rate

Four Most Prestigious & Exclusive Safety Ratings

Phenix Jet holds the four most prestigious and exclusive Safety Ratings; ISBAO Stage III, Argus Platinum, Air Charter Safety Foundation, and Wyvern Wingman, making the Charter and Aircraft Management company the top Asia-Pacific-rated Operator.

Validated Safety Management System (SMS)

Our robust and mature Safety Management System (SMS) is regularly audited and validated to the highest international safety standards. On the ground or in the air, no matter where in the world, our experienced team is fully focused on ensuring the safest possible flight operations.

World-Class Crew Training & Operational Oversight

At Phenix Jet, safety begins long before takeoff. Our pilots and crew undergo rigorous, recurrent training at globally recognized facilities. This ensures they remain proficient in the latest aircraft systems, procedures, and safety protocols. Each flight is backed by meticulous operational oversight, with our dispatch, maintenance, and safety teams working together to anticipate and mitigate potential risks, delivering peace of mind for every journey.

Worldwide Locations

Phenix Jet's strategically located staff and maintenance technicians allow for 24/7 support around the globe.
